How to install...

BIFOLD DOOR ALIGNERS

NA110 - DOOR ALIGNERS USED IN 4 PANEL OPENINGS

PA 132 - PIVOT ALIGNER GOES PIVOT TO PIVOT USED WHEN MORE THEN 4 PANEL IN AN OPENING

ALIGNER INSTALLATION. ADDITIONAL STEP

Door to door aligners. Are used in 4 panel or larger openings between the two panels with the rollers at top. Attach pairs of plastic door aligners approximately 2" and 36" from bottom of door, similar to picture, using supplied #8 screws (two per aligner)

Pivot aligners. Are only used on 6 or 8 panel units. They go from the panel with the pivot in it to the adjacent panel with a pivot. Attach at center height, from one pivot panel to the next pivot panel using four #8 screws as shown in the diagram.
